Brand new to the charter market for 2023, Heesen Yachts' Reliance is the ultimate option for those seeking opulence, space and exceptional amenities over four luxurious decks. Built with a steel fast displacement hull and aluminium superstructure, she is one of just five of the popular 55 Steel series. Her striking shark-grey exterior and powerful lines make her easily distinguishable on the water, whilst the combination of a class-leading fast displacement hull and a lightweight superstructure make her remarkably fuel efficient for her volume.

Reliance features vast outdoor spaces, bringing her guests ever closer to the ocean. On the lower deck, she features an expansive swim platform and a breath-taking beach club, complete with a wellness centre. Within it guests can enjoy state of the art facilities, including top of the range Technogym exercise equipment, a sauna and hammam. Heading up onto the main deck you are welcomed into another outdoor lounge area with seating and a table, perfect for relaxation and entertainment.

The standout outdoor spaces include Reliance's impressive sundeck, on which there is a jacuzzi, sun loungers, lounge chairs and a well-equipped bar with a teppanyaki grill, ensuring the drinks are always

chilled and the entertainment is nonstop. Alfresco dining is available on the upper deck, where large lounge sofas also provide a relaxing and sociable layout.

Stepping inside guests will immediately be captivated by Reliance's impressive volume and Luca Dini's masterful interior design. Calming taupe and cream tones blend seamlessly with a rich array of darker textures and pronounced metals, resulting in a timeless and elegant environment. All furnishings in the main salon, including a dining table for up to 12 guests, are complemented with exquisite feature lighting and ornaments, creating warm and atmospheric spaces that guests will not want to leave.

The impressive full-beam owner's suite is located forward on the main deck and is wonderfully spacious with multifunctional areas, the cabin also benefits from an abundance of natural light and superb ocean views through opening windows. Tay wood panelling throughout with dark oak framing adds to the sense of grandeur of this calm and relaxed space, with exquisite hand selected marble work in the ensuite and dressing room which features a central bath, two separate showers, twin toilets and his and her sinks.

The full beam sky lounge on the upper deck provides an additional standout area for recreation and entertainment, with sophisticated seating and a bar area with floor to ceiling windows leading straight out onto the upper aft deck. The guest cabins are located on the lower deck and comprise of two doubles, two twins and one VIP cabin which is located on the starboard side of the upper deck.

Stabilisers at anchor and underway ensure maximum comfort, whilst a well-stocked toybox delivers some fantastic high-speed equipment, including Seabobs, electric surfboards, jet skis and more, as well as not one, but two tenders, for excursions ashore and transportation. Ultrafast Starlink internet provides unbeatable connectivity throughout, backed up by 4/5G and VSAT antennas.
